
EXPLOSION PROOF TORCHLIGHT

Our **WorkSAFE I** series of lights, have been designed specifically for use in **Division 1 hazardous locations**. A Division 1 hazardous location is one where ignitable concentrations of flammable gases, vapors or liquids can exist **ALL OF THE TIME** or some of the time under normal operating conditions. Each light has been individually tested and certified for use in various Division 1 locations.

EXPLOSION PROOF TORCHLIGHT

Each group listed on the light's certification, denotes which type of flammable materials the light can be exposed to safely. Even if your facility has only one potentially flammable area, Division 1 approved flashlights and lanterns are the safest choice. It eliminates the potential of someone unknowingly carrying an unapproved flashlight into a hazardous location. In the event of bulb breakage, the circuit breaking mechanism instantly disconnects the bulb from the power source.

EXPLOSION PROOF TORCHLIGHT

Waterproof Two & Three D-Cell

The waterproof design of these safety-approved lights make them ideal for places where safety is necessary and water is a concern. Each flashlight features a waterproof 3-way switch. When in the middle position, the button on the switch can be pressed to provide intermittent light. Right angle light also features a belt clip.

Waterproof Lantern

An over-sized reflector and super-bright Krypton bulb provide greater light output. This lantern also features our circuit breaking mechanism, a glove-sized handle, switch guard and spare bulb holder. Can be powered by an Alkaline or Carbon Zinc 6-volt battery. 50,000 beam candlepower

EXPLOSION PROOF TORCHLIGHT

Utility Lantern

Our rugged utility lantern features a 120 pivoting head, glove- sized handle and switch plus a dual battery compartment. 30,000 beam candlepower.

Submersible Flashlight

This 2 AA-cell pocketlight not only passes UL and MSHA certification for Division 1 hazardous locations, it also passes a 30 foot drop test for durability! Water tight to 1000 feet, this tough little light also features an anti-roll design, pre-focused spot beam, heavy duty lanyard and faceted reflector.

Headlamp

For hands-free operation in a hazardous environment, our WorkSafe I headlamp can be comfortably worn on a helmet or alone on head. Features a swivel lamp housing and pre- focused spot beam. Industrial model also available.

EXPLOSION PROOF TORCHLIGHT

Two C-cell Submersible
